

Hinge Warranty

SGS Hardware designs, manufactures and tests our hinges to meet the latest industry standards.

Industry standards are listed in the following publications;

Performance testing is outlined in ANSI/BHMA A156.1-2006.

Dimensional data is outlined in ANSI/BHMA A156.7-2003.

Materials and finishes are listed in ANSI/BHMA A156.18-2006.

Wood screws are listed in ANSI B158.6.1 - 1981 (R1997).

SGS hinges are warranted to be free of defects in both workmanship and materials. SGS's liability under all warranties, express or implied, shall be limited to replacement of defective goods. The defective goods must be returned to our nearest warehouse, with freight charges prepaid. Any bending, defacing or modification of a hinge after leaving our warehouse will void the warranty.

This warranty is valid only if the hinges are specified, applied and adjusted in accordance to industry standards, and on frames and doors that are plumb and square. Care should be taken when cleaning the finished as certain solvents and chemicals may affect the lacquer finishes.

Exceptions to any of the previous stipulations are only with permission of the management of SGS.

This warranty is good for life of the opening under normal use.
